

**Questions and Responses to  
RFQ-SF-04-0-2020  
IHMC Research Center For A/E Firm**

Question #	Question	Response
1	Has an Architect been selected? If so, can you tell us who that firm is?	DAG Architects, Pensacola with Cooper Carry, Atlanta, as lab consultants.
2	With our written response, would it be acceptable to follow the "REQUESTED INFORMATION" sections in the order listed instead of following the "RFQ SUBMISSION INSTRUCTIONS" sections in the order listed as long as we are providing all the pertinent information requested?	Yes
3	Is item 4.2 in the "RFQ.SUBMISSION INSTRUCTIONS" the same as item 10 in the "RFQ.SUBMISSION INSTRUCTIONS" section?	Yes, we would like 3 reference of similar sized project with contact information.
4	A quick question regarding the lump sum monthly GCs cost: I understand that certain ancillary staff costs like mobile phones, computers, etc. are to be included in the rate, but can you please clarify if you would like staff vehicles, fuel, etc. also included, or will that be accounted for separately with future General Requirements type costs?	I would include vehicles, fuel etc. in the rate.
5	What other GC's are being solicited for RFQ responses?	Several local firms, and a few Tallahassee firms have expressed interest. We have probably send the RFQ to 10 firms, some have not committed to submit qualifications, and one has declined.
6	Who is the selected Architect team?	We selected DAG Architects (Dave Luttrell), and Cooper Carry (Brent Amos) from Atlanta is their lab consultant.
7	Who is on the selection committee?	There are six official members of the committee, all IHMC employees, and the design team will be consulting but not voting.
