ihmc
ROBOTICS CAMP 2023

LEARN PROGRAMMING AND/OR ROBOTICS!

IHMC's 2023 Summer Robotics Camp will offer students the opportunity to learn about computer programming and robotics. Campers will work in teams to master Lego Mindstorms challenges. They will further develop their teamwork skills, their confidence in problem solving, and their creativity. Campers will hear short presentations about state-of-the-art research at IHMC, and they will have the opportunity to eat lunch with an IHMC research scientist, in small groups. The July session will not include robotics this year - it is Python Programming.

SESSIONS

1   **Ocala Session 1: Rising 8th Graders Robotics**
June 26-29, 9:00am - 3:00pm

2   **Ocala Session 2: Rising 9th and 10th Graders Python Programming**
July 10-13, 9:00am - 3:00pm

DETAILS

Each session costs $195.00. Students should select one camp session (only) based on grade level. Space is limited to 20 participants per session. Financial assistance may be available based on need, for qualified candidates. Acceptance is on a first-come, first-served basis.
