ROBOTICS CAMP 2025

ihmc

BUILD AND PROGRAM ROBOTS!

IHMC's 2025 Summer Robotics Camp will offer students the opportunity to learn about computer programming and robotics. Campers will further develop their teamwork skills, confidence in problem solving, and creativity. They will hear short presentations about state-of-the-art research at IHMC, and they will have the opportunity to eat lunch with an IHMC research scientist in a small group. In both sessions, we will work with Lego Mindstorms robots. In the second session, campers will also get some exposure to the Python programming language.

SESSIONS

1 Ocala Session 1: Rising 8th Graders
June 23–26, 9:30am–3:00pm

2 Ocala Session 2: Rising 9th and 10th Graders
July 7–10, 9:00am–3:00pm

DETAILS

Each session costs $225.00. Students should select one camp session (only) based on grade level. Space is limited to 20 participants per session. Financial assistance may be available based on need, for qualified candidates. Acceptance is on a first-come, first-served basis, with priority given to students who haven't attended in prior years.
