**REQUEST FOR QUALIFICATIONS ARCHITECTURAL AND CONSTRUCTION
ADMINISTRATION SERVICES**

IHMC SENSITIVE COMPARTMENTED INFORMATION FACILITY (SCIF)

TRIUMPH GULF COAST PROJECT #233 - PENSACOLA, FLORIDA

PROCUREMENT PURSUANT TO SECTION 287.055, FLORIDA STATUTE

Solicitation Item	Information
Request for Qualification No.	IHMC Request for Qualifications-2026-scif
Issue Date:	Monday, October 26, 2026 - 9:00 a.m. CST at IHMC.US
Deadline for Written Questions:	Monday, November 9, 2026 - 5:00 p.m. CST
IHMC Responses and Addendum Issued:	Thursday, November 12, 2026 - 5:00 p.m. CST
Statement of Qualifications ("SOQs") Due Date:	Monday, November 30, 2026 - 2:00 p.m. CST
Submission Method:	Single searchable PDF to scifsubmission@ihmc.org
Procurement Contact:	IHMC Select Committee - scifsubmission@ihmc.org

**IMPORTANT: DO NOT INCLUDE FEES, HOURLY RATES, OR OTHER
COMPENSATION INFORMATION IN THE STATEMENT OF QUALIFICATIONS.**

**PUBLIC NOTICE AND ADVERTISEMENT
NOTICE OF REQUEST FOR QUALIFICATIONS
ARCHITECTURAL AND CONSTRUCTION ADMINISTRATION SERVICES**

The Florida Institute for Human and Machine Cognition, Inc. ("IHMC") invites qualified architectural firms to submit Statements of Qualifications for professional architectural, engineering, permitting, construction procurement support, and construction administration services for the IHMC Sensitive Compartmented Information Facility (IHMC/SCIF) in downtown Pensacola, Florida. The Project is associated with Triumph Gulf Coast Project #233.

IHMC will use a qualifications-based selection process consistent with section 287.055, Florida Statutes, the Consultants' Competitive Negotiation Act, the applicable requirements of the Triumph Gulf Coast Grant Award Agreement, as amended, and IHMC's applicable purchasing procedures and processes. Firms will be evaluated and ranked solely on their qualifications, experience, approach, and ability to perform the required services. Professional fees, hourly rates, and other compensation information will not be requested, accepted, or considered until after IHMC completes the final qualifications ranking.

The anticipated facility will be located on existing IHMC property at the southwest corner of East Garden Street and South Alcaniz Street. The final facility size and configuration will be established during programming and design based on IHMC's operational requirements, applicable security and accreditation criteria, site conditions, applicable historic-district and permitting requirements, and available project funding. The facility is intended to provide a secure environment for federal classified activities associated with national defense, intelligence, and security sponsors and to support IHMC's classified research activities, meetings, briefings, secure collaboration, and planning. The SCIF will be designed to provide the infrastructure necessary for the processing, storage, and/or discussion of Sensitive Compartmented Information (SCI) and to satisfy applicable certification and accreditation requirements.

The site is within the Pensacola Historic District. The selected team must be capable of successfully navigating City of Pensacola land development, historic preservation, Architectural Review Board (ARB), permitting, and related approval processes. Direct experience with the City of Pensacola ARB and comparable work within Pensacola historic preservation districts is strongly preferred and will be specifically evaluated.

NO FEE PROPOSAL: Respondents shall not submit proposed professional fees, hourly rates, multipliers, reimbursable schedules, or other compensation information with the Statement of Qualifications. Compensation will be requested and negotiated only after IHMC completes the final qualifications ranking.

Item	Date and Additional Information
Request for Qualifications documents available:	Monday, October 26, 2026 - 9:00 a.m. CST at IHMC.US
Written Questions Due:	Monday, November 9, 2026 - 5:00 p.m. CST
Final Addendum Anticipated:	Thursday, November 12, 2026 - 5:00 p.m. CST
Statement of Qualifications Due:	Monday, November 30, 2026 - 2:00 p.m. CT
Procurement Contact:	IHMC Select Committee - scifsubmission@ihmc.org

IHMC reserves the right to reject any or all Statement of Qualifications, waive minor informalities when permitted, request clarifications, cancel or reissue the solicitation, and condition any award on successful negotiations and all required IHMC and Triumph Gulf Coast approvals.

REQUEST FOR QUALIFICATIONS

1. PURPOSE AND PROCUREMENT METHOD:

IHMC seeks a highly qualified Architect-of-Record and multidisciplinary Architectural team to provide full professional services for the IHMC/SCIF using a traditional design-bid-build delivery method. The selected architectural team will remain directly under contract with IHMC throughout design, contractor procurement, construction, commissioning closeout coordination, and final completion.

IHMC will use a qualifications-based selection process consistent with section 287.055, Florida Statutes, the Consultants' Competitive Negotiation Act, the applicable requirements of the Triumph Gulf Coast Grant Award Agreement, as amended, and IHMC's applicable purchasing procedures and processes. Firms will be evaluated and ranked solely on their qualifications, experience, approach, and ability to perform the required services. Professional fees, hourly rates, and other compensation information will not be requested, accepted, or considered until after IHMC completes the final qualifications ranking.

2. OWNER, FUNDING AND PROJECT CONTEXT:

IHMC is a legislatively created non-profit research institute of the State of Florida established under section 1004.447, Florida Statutes. The Project is associated with Triumph Gulf Coast Project #233. The procurement and resulting professional services agreement must be administered consistently with the Grant Award Agreement, as amended, including applicable competitive procurement, documentation, review, approval, audit, funding, and change-control requirements.

The architect shall cooperate with IHMC in preparing documentation needed for Triumph review, reimbursement, audit, and grant compliance. No respondent should assume that an IHMC selection or notice of intended award constitutes final authorization to proceed. Contract execution and Notice to Proceed are subject to all required approvals.

3. PROJECT DESCRIPTION AND LOCATION:

Project site: Existing IHMC property at the southwest corner of East Garden Street and South Alcaniz Street in downtown Pensacola, Florida. The facility will expand IHMC's downtown Pensacola campus near the IHMC Healthspan, Resilience and Performance Center. The final facility size and configuration will be established during programming and design based on IHMC's operational requirements, applicable security and accreditation criteria, site conditions, applicable historic-district and permitting requirements, and available project funding.

The facility is intended to provide a secure environment for federal classified activities associated with national defense, intelligence, and security sponsors and to support IHMC's

classified research activities, meetings, briefings, secure collaboration, and planning. The SCIF will be designed to provide the infrastructure necessary for the processing, storage, and/or discussion of Sensitive Compartmented Information (SCI) and to satisfy applicable certification and accreditation requirements.

Current planning anticipates two secure rooms of approximately equal size, each intended to be capable of independently satisfying applicable secure-facility requirements. The final program, facility size and configuration, accreditation path, technical criteria, and controlled security requirements will be confirmed by IHMC in coordination with its designated security and accreditation professionals.

The public Request for Qualifications intentionally omits detailed security criteria. The selected firm must be prepared to execute appropriate confidentiality security acknowledgments and to use approved controlled methods for receipt, storage, transmission, discussion, reproduction, and disposition of sensitive project information.

4. PENSACOLA HISTORIC DISTRICT, ARCHITECTURAL REVIEW BOARD AND LOCAL APPROVAL REQUIREMENTS:

The site is within the Pensacola Historic District. The City of Pensacola Architectural Review Board approves or disapproves plans for buildings to be erected, renovated, or razed within historic, preservation, and Governmental Center districts. The selected firm is responsible for confirming the exact approval path at project initiation and leading all required City coordination.

- Confirm zoning, future land use, overlay historic district status, development standards, contributing and noncontributing status if relevant, and all required City approvals.
- Coordinate early with City of Pensacola Development Services, including Planning and Zoning, Building Inspections, Engineering, Fire, and other reviewing departments as applicable.
- Participate in One-Stop Development Review or equivalent coordinated staff review when useful to validate site, zoning, engineering, permitting, and schedule requirements.
- Lead ARB coordination and representation, including pre-application discussions, complete application packages, contextual photographs, renderings, elevations, material information, responses to staff comments, and attendance presentation at meetings or hearings.
- Demonstrate understanding of district context, scale, massing, materials, streetscape, architectural character, and the City's historic-preservation expectations. Where applicable, address the Pensacola Secretary of the Interior's Standards for Rehabilitation.
- Identify and manage any zoning relief, variance, site-plan, right-of-way, utility, stormwater, landscape, tree, fire, accessibility, floodplain, archaeological, cultural-resource, State Historic Preservation Office, if applicable, or other review triggered by the final design.
- Build all ARB and City review milestones into the design schedule and promptly advise IHMC of any approval issue that may affect security, scope, budget, or schedule.

5. SCOPE OF PROFESSIONAL SERVICES:

- Project validation, programming, space planning and confirmation of operational and security requirements.
- Existing conditions investigation and coordination of survey, geotechnical, environmental, utility, and other site investigations as applicable.
- Code, zoning, historic district ARB, site, utility, accessibility, fire, life safety, floodplain stormwater, and permitting due diligence.
- Concept design and alternatives sufficient for IHMC decision-making and early City ARB feedback is advantageous.
- Schematic Design, Design Development, and complete Construction Documents suitable for permitting and competitive construction procurement.
- Architectural; civil; structural; mechanical; electrical; plumbing; fire protection; life safety; telecommunications/IT; physical security; access control; audiovisual; and all other specialty disciplines required for a complete project.
- Secure-facility design coordination, including integration of architectural, structural, MEP, telecommunications, grounding, physical security, access control, and other systems with requirements provided by IHMC's compliance security team.
- Cost estimating at appropriate design milestones; design-to-budget management; value analysis that does not compromise security, function, durability, code compliance, or required historic compatibility.
- Development and maintenance of an integrated design, permitting, ARB schedule aligned with IHMC and Triumph milestones.
- Preparation, submission, and active management of all permit and agency review packages through approval, including responses and resubmittals.
- Assistance to IHMC in preparing the later competitive solicitation package for the general contractor, including final plans, specifications, technical requirements, bid alternates, addenda, responses to bidder questions, and technical evaluation support.
- Construction administration as IHMC's independent design professional, including preconstruction conference participation, submittal, shop drawing review, RFI responses, site observations, pay application review, change proposal evaluation, interpretation of contract documents, punch lists, substantial and final completion, and record-document coordination.
- Commissioning coordination and closeout support, including Operations and Maintenance documentation and owner training coordination where applicable.
- Grant-compliance support reasonably related to the architectural services, including documentation needed for Triumph review of plans, specifications, contract actions, change orders, and funding requests.
- Other customary professional services reasonably necessary to deliver a complete, permitted, constructible, secure, operational facility.

6. SECURITY AND CONTROLLED INFORMATION REQUIREMENTS:

- The selected Architectural team must be capable of coordinating with IHMC, IHMC's designated security and accreditation professionals, and the Defense Counterintelligence and Security Agency, as applicable.

- Demonstrated experience designing secure, controlled, defense, intelligence, federal, or comparably sensitive facilities is required or strongly preferred, as specified in this Request for Qualifications.
- The firm must designate a security point of contact and identify the procedures it will use to control access to sensitive project information.
- Personnel receiving controlled or sensitive security information must satisfy all applicable eligibility, citizenship, clearance, access, and other security requirements established by IHMC or the applicable government customer or accrediting authority. IHMC will identify project-specific requirements before controlled information is released.
- Respondents must not include classified, controlled, export-controlled, proprietary third-party, or otherwise restricted information in their publicly submitted Statement of Qualifications unless the information has been lawfully authorized for public release in accordance with applicable security requirements.
- The selected firm must immediately report any suspected unauthorized access, disclosure, compromise, or loss of controlled project information and cooperate with IHMC's applicable security incident response requirements.
- Detailed secure-facility criteria and other sensitive security requirements will not be included in the public solicitation and may be provided separately through appropriate controlled channels only to authorized parties.

7. MINIMUM QUALIFICATIONS:

- Florida licensed architectural firm authorized to offer and provide architectural services in Florida.
- Proposed Architect-of-Record licensed in Florida and in good standing.
- Ability to provide and manage all required engineering and specialty disciplines through qualified personnel and subconsultants.
- Demonstrated successful delivery of technically complex projects of comparable character and responsibility.
- Demonstrated experience with secure controlled facilities or a proposed specialty consultant or team member with directly relevant secure facility experience.
- Ability to staff the Project continuously through design, permitting, construction procurement, construction administration, and closeout.
- No disqualifying debarment, suspension, conflict of interest, or legal restriction on contracting with IHMC or performing the services.

8. STRONGLY PREFERRED AND PROJECT SPECIFIC QUALIFICATIONS:

- Direct experience with the City of Pensacola Architectural Review Board, including preparation of applications and successful presentation and approval of complex projects.
- Successful work in the Pensacola Historic District or another City of Pensacola historic preservation district.
- Experience with City of Pensacola Planning and Zoning, Development Services, Building Inspections, and permitting.
- Experience with defense federal, secure, SCIF/ICD 705, or similarly controlled facilities.

- Experience integrating stringent security requirements into a publicly visible building in a historically sensitive urban context.
- Experience with hurricane, wind resilience, coastal conditions, stormwater, floodplain issues, and durable envelope material systems appropriate to Northwest Florida.
- Experience with constrained urban sites and coordination around an active institutional research campus.
- Strong design to budget and change avoidance record.

9. **REQUIRED STATEMENT OF QUALIFICATIONS CONTENT AND ORGANIZATION:**

Statement of Qualifications should be concise, directly responsive, and organized in the following order. Unless modified by addendum, the narrative portion should not exceed thirty-five (35) single sided pages, excluding covers, tabs, required forms, and licenses.

A. Cover Letter: Legal firm name; principal contact; office responsible; acknowledgment of addenda; commitment to the Project; signature by authorized representative.

B. Firm Profile: Ownership, locations, years in business, Florida authorization, size, core services, and relevant capabilities.

C. Project Team: Organization chart; key personnel and subconsultants; roles; licenses; concise resumes; availability; anticipated percentage commitment; security point of contact.

D. Comparable Project Experience: Up to eight projects. Identify owner, location, year, construction cost, delivery method, scope, schedule, budget performance, secure facility relevance, historic Architectural Review Board relevance, and proposed team members who worked on the project.

E. Sensitive Compartmented Information Facility Experience: Describe successfully completed secure controlled facilities and the firm's role. Do not disclose restricted details. Identify experience coordinating accreditation security requirements and controlled information.

F. Pensacola Historic and Architectural Review Board Experience: Specific narrative identifying City of Pensacola Architectural Review Board, historic preservation district, Planning and Zoning, and permitting experience; project names; approval outcomes; and proposed personnel involved.

G. Project Understanding and Approach: Understanding of IHMC's objectives; design approach; security integration; historic contextual design; City Architectural Review Board approval strategy; quality control; stakeholder coordination; risk management; and construction administration approach.

H. Schedule and Capacity: Current projected workload; staffing plan; anticipated design, Architectural Review Board and permitting sequence; ability to support accelerated or grant driven milestones; key schedule risks.

I. Cost Management Approach: Estimating, design-to-budget, value management, scope control, constructability, and change avoidance. Do not provide professional fees or rates.

J. Past Performance and References: At least three (3) owner references for comparable projects, including one secure controlled project if available and one Pensacola Architectural Review Board historic project if available.

K. Claims, Litigation and Terminations: Material professional liability claims, terminations for default, or litigation during the past five years relevant to performance; explain disposition.

L. Required Forms: Complete and sign all respondent forms in Part III.

10. EVALUATION CRITERIA:

Criterion	Points	Evaluation Focus
Sensitive Compartmented Information Facility complex project experience.	20	Comparable secure, federal defense, research, technical, or controlled facilities; successful delivery; relevance of actual proposed team.
Pensacola historic district Architectural Review Board local approval experience.	20	Direct City of Pensacola Architectural Review Board, Planning and Zoning, permitting, historic preservation district experience and demonstrated approval success.
Key personnel and multidisciplinary team.	20	Qualifications, licenses, relevant experience, continuity, availability, security coordination, engineering, subconsultant strength.
Project understanding and approach.	20	Security integration, context-sensitive design, Architectural Review Board, City strategy, quality control, risk management, contractor procurement support, construction administration.

Criterion	Points	Evaluation Focus
Past performance, budget, schedule record.	10	References, design-to-budget performance, schedule discipline, responsiveness, claims history, and change avoidance. This criterion evaluates past performance and willingness to meet budget requirements; it does not evaluate proposed professional fees.
Capacity and schedule	10	Current and projected workload, staffing depth, location and responsiveness, ability to meet IHMC and Triumph milestones, continuity through construction, and volume of work previously awarded by IHMC, while preserving selection of the most highly qualified firms.
TOTAL	100	Professional fees, hourly rates, multipliers, reimbursables, and all other compensation information are excluded from evaluation and scoring during the qualifications phase. Selection is based on the most highly qualified firm, not the lowest bid or price.

11. SHORTLIST, DISCUSSIONS, AND FINAL RANKING:

Consistent with the Consultants' Competitive Negotiation Act, IHMC will conduct discussions with, and may require public presentations or interviews by, no fewer than three (3) firms when at least three (3) qualified firms are available. IHMC will rank no fewer than three (3) firms in order of preference as the most highly qualified when sufficient qualified firms respond. Finalists will receive substantially the same core presentation parameters and questions. Professional fees, hourly rates, multipliers, reimbursables, and other compensation information will not be requested, accepted, scored, or otherwise considered before the final qualifications ranking.

12. **COMPETITIVE NEGOTIATION:**

After the final qualifications ranking is approved, IHMC will negotiate first with the highest-ranked and most qualified firm regarding final scope, deliverables, staffing, schedule, contract terms, and compensation. At that stage only, IHMC may request a detailed fee proposal, staffing hours, rates, reimbursables, and other cost support. IHMC will conduct and document the cost analysis required to determine that compensation is fair, competitive, and reasonable. If satisfactory terms cannot be reached, IHMC will formally terminate negotiations with that firm before beginning negotiations with the next-ranked firm. IHMC will not return to a firm after formally terminating negotiations with that firm. Any truth-in-negotiation certification required by section 287.055, Florida Statutes, will be included in the final agreement.

13. **ANTICIPATED PROCUREMENT SCHEDULE:**

Event	Anticipated Date
Request for Qualifications issued and public posting:	Monday, October 26, 2026 – 9:00 a.m. CST
Optional pre-submittal and site meeting:	Thursday, November 5, 2026 – 10:00 a.m. CT
Written questions due:	Monday, November 9, 2026 – 5:00 p.m. CT
Final Questions and Answers and addendum:	Thursday, November 12, 2026 – 5:00 p.m. CT
Statement of Qualifications due:	Monday, November 30, 2026 – 2:00 p.m. CT
Administrative review:	Tuesday-Wednesday, December 1-2, 2026
Finalist discussions and interviews:	Monday-Tuesday, December 14-15, 2026, beginning at 9:00 a.m. CT; assigned interview times will be provided to finalists
Final qualifications ranking:	Thursday, December 17, 2026 - 9:00 a.m. CT
Negotiations with highest-ranked firm:	Monday, January 4 - Friday, January 22, 2027
Notice of Intended Award:	Monday, January 25, 2027 - by 5:00 p.m. CT
Triumph review and approval, if required:	Tuesday, January 26-Monday, February 7, 2027
Contract execution and Notice to Proceed:	On or about Monday, February 22, 2027

IHMC may revise this schedule by written addendum. Respondents are responsible for monitoring the procurement webpage for addenda and notices. The schedule is structured to allow an orderly qualifications-based process: public notice and document access; an opportunity for site review and written questions; issuance of the final addendum with meaningful response time remaining; administrative responsiveness review; public evaluation, shortlist, discussions or interviews, and final qualifications ranking; and only then negotiation with the highest-ranked firm. Dates after the Statement of Qualifications deadline are anticipated and may be adjusted as needed to provide adequate review, public notice, approvals, and fair competition.

14. **SUBMISSION INSTRUCTIONS:**

- Submit one complete Statement of Qualifications as a single searchable PDF to scifsubmissions@ihmc.org.

- File name: **Firm Name-IHMC Request for Qualifications-2026-scif.pdf**.
- Statement of Qualifications must be received no later than the stated deadline in Central Standard Time (CST). Respondents are responsible for successful delivery.
- Do not submit professional fees, hourly rates, multipliers, reimbursable schedules, or other compensation information.
- Clearly identify any information claimed confidential or exempt and state the legal basis. Do not include restricted security information in the public Statement of Qualifications.
- Late submissions may be rejected. IHMC is not responsible for transmission, spam-filter, file size, or portal problems.

15. **QUESTIONS, ADDENDA, AND COMMUNICATIONS:**

All procurement communications must be directed in writing to scifsubmission@ihmc.org. Respondents and their representatives shall not contact Selection Committee members, IHMC researchers, officers, employees, Board members, Triumph representatives, or City reviewers to advocate for selection. IHMC will issue material interpretations, clarifications, or changes only through written Questions and Answers or addendum made available to all prospective respondents.

16. **PUBLIC MEETINGS, RECORDS AND PROCUREMENT INTEGRITY:**

IHMC will administer evaluation and selection in accordance with applicable public-access requirements and its procurement procedures. Respondents should assume that submitted materials and procurement records may become public records unless a specific exemption applies. No gifts, favors, employment discussions, or other benefits may be offered to influence this procurement. Any actual or potential conflict must be disclosed promptly.

17. **TRIUMPH GULF COAST REQUIREMENTS:**

- The Project is associated with Triumph Gulf Coast Project #233, and the resulting agreement is subject to applicable Grant Award Agreement requirements.
- IHMC will maintain documentation sufficient to demonstrate compliance with the competitive procurement requirements applicable to the Project.
- The proposed selection contract and supporting procurement documentation will be submitted to Triumph for review and approval when required before IHMC becomes obligated.
- The architect must cooperate in providing plans, specifications, cost information, schedules, certifications, and other materials reasonably required for Triumph review or funding documentation.
- Contract amendments, material scope and fee changes, and change orders are subject to the Grant Award Agreement's then current approval requirements. The architect must not proceed on material extra services without written IHMC authorization.
- Triumph review of the procurement approach does not waive separate review rights concerning the proposed contract, plans, specifications, amendments, change orders, or requests for funding.

18. INSURANCE AND CONTRACT REQUIREMENTS:

The selected firm will be required to enter into an IHMC professional services agreement and maintain insurance appropriate to the nature, scope, and risk of the Project, including professional liability errors and omissions, commercial general liability, automobile liability, workers' compensation, and employer's liability insurance. Final coverage limits, endorsements, additional insured requirements, and other insurance terms will be established in the professional services agreement or by Request for Qualifications addendum.

The professional services agreement is expected to address, as applicable, standard of care; scope and deliverables; schedule; ownership and licensing of instruments of service; confidentiality and security; records retention and audit access; Triumph Gulf Coast and other grant compliance requirements; indemnification; insurance; change control; suspension and termination; construction administration; and required IHMC and Triumph Gulf Coast approvals.

The selected firm and its subconsultants will be required to comply with all applicable contractual provisions required to be flowed down under the Triumph Gulf Coast Project #233 Grant Award Agreement, as amended, including applicable insurance and indemnification requirements.

Nothing contained in this Request for Qualifications, the selection process, or the resulting professional services agreement shall be construed as a waiver of IHMC's sovereign immunity or any limitation, defense, protection, or remedy available to IHMC under applicable Florida law, including Sections 768.28 and 1004.447, Florida Statutes. IHMC will not be required to indemnify, defend, or hold harmless the selected firm or any other person or entity except to the extent expressly authorized by Florida law and section 1004.447, of the Florida Statutes.

19. RESERVATION OF RIGHTS:

- Reject any or all Statement of Qualifications or cancel or reissue the Request for Qualifications when in IHMC's interest and permitted by applicable requirements.
- Waive minor informalities or request clarifications that do not create an unfair competitive advantage.
- Verify submitted information and contact references, owners, regulators, or other sources regarding performance.
- Shortlist, interview, and rank firms using the published criteria.
- Require replacement of a proposed subconsultant or key person when justified and consistent with procurement fairness.
- Modify the anticipated scope or schedule before contract execution.
- Condition award and execution on successful negotiations, IHMC approvals, Triumph review, approval when required, insurance, security requirements, and final contract terms.

RESPONDENT FORMS

FORM A: STATEMENT OF QUALIFICATION SUBMISSION AND CERTIFICATION

Legal Firm Name: _____

Business Address: _____

Primary Contact: _____

Primary Contact Title: _____

Phone: _____

Email: _____

Florida Firm License and Authorization Number: _____

Proposed Architect of Record and Florida License Number: _____

By signing below, Respondent certifies that the Statement of Qualifications is accurate to the best of its knowledge; the signer is authorized; all addenda have been acknowledged; no prohibited compensation information is included; and Respondent agrees to comply with the solicitation's communication, security, conflict, and procurement-integrity requirements.

Authorized Signature: _____

Printed Name and Title: _____

Date: _____

FORM B:
ADDENDA ACKNOWLEDGMENT

Addendum No.	Date Received	Initials

FORM C
CONFLICT OF INTEREST DISCLOSURE

Disclose any actual or potential organizational, financial, personal, employment, or other relationship involving Respondent, proposed team members, IHMC, Triumph Gulf Coast, or persons participating in the selection that could reasonably be perceived to affect impartial performance or procurement integrity.

☐ None. ☐ Disclosure attached.

Firm: _____

By: _____

Date: _____

FORM D
DEBARMENT AND ELIGIBILITY CERTIFICATION

Respondent certifies that, to the best of its knowledge, neither the firm nor key persons proposed for this Project are presently debarred, suspended, declared ineligible, or otherwise prohibited from performing the proposed services under applicable law or funding requirements, except as disclosed in an attachment.

☐ No exceptions. ☐ Exceptions attached.

Firm: _____

By: _____

Date: _____

FORM E
SECURITY CAPABILITY CERTIFICATION

Respondent acknowledges that the Project includes sensitive security requirements. Respondent agrees not to request, receive, store, transmit, or disclose controlled project information except as authorized by IHMC and agrees that personnel access may be limited by project-specific eligibility, citizenship, need-to-know, or other security requirements established by IHMC or the applicable authority.

☐ Acknowledged and accepted.

☐ Exceptions and clarifications attached (without restricted details).
